

The Legionnaires Lawyer – Johnny Denenea

Travel Diary

It's absolutely crucial to quickly identify the source of the legionella exposure. The first important date is the date that the patient first became ill with any symptoms. List that below:

THE SYMPTOMS FIRST STARTED ON: _____
MM/DD/YY

Now, list the patient's activities and movement starting the day before the symptoms first started and work backwards to 14 days before the first day that the symptoms started.

List places visited and any travel by plane, bus, car, train, cycle, or foot focusing on any type of water related exposures.

Day 1	_____	Places	_____
Day 2	_____	Places	_____
Day 3	_____	Places	_____
Day 4	_____	Places	_____
Day 5	_____	Places	_____
Day 6	_____	Places	_____
Day 7	_____	Places	_____
Day 8	_____	Places	_____
Day 9	_____	Places	_____
Day 10	_____	Places	_____
Day 11	_____	Places	_____
Day 12	_____	Places	_____
Day 13	_____	Places	_____
Day 14	_____	Places	_____

Any Other Comments: _____
